

VOJENSKÉ ZDRAVOTNICKÉ LISTY

VOLUME LXX

DECEMBER 2001

SUPPLEMENTUM 2

*THE 6th CZECH AND SLOVAK INTERNATIONAL TOXICOLOGICAL CONFERENCE
IN HRADEC KRÁLOVÉ
FROM 3rd TO 5th SEPTEMBER 2001*

Editorial:

Dear readers,

This number of Supplementum contains further papers of the 6th Czech and Slovak International Toxicological Conference held 3–5 September 2001 at the Purkyně Military Medical Academy in Hradec Králové. This conference was held by the Toxicological Section of the Czech Association for Experimental and Clinical Pharmacology and Toxicology of the Czech Purkyně Medical Association, the Toxicological Section of the Slovak Pharmacological Association, the Slovak Medical Association and the Purkyně Military Medical Academy in Hradec Králové.

The Conference took place on the occasion of two important anniversaries of the Czech military health service – the 75th anniversary of establishing military medical education and the 50th anniversary of the Purkyně Military Medical Academy in Hradec Králové.

The number and the extent of papers obtained by the editor's office exceeded technical possibilities to edit the papers only in one issue of the Supplementum. Therefore, all papers are published in the issues Nr. 1 and Nr. 2, vol. 70, 2001.

*Supplement Editor
Prof. Josef Fusek, MD, DSc.*
