

Research & Innovation Conference

The 2nd International Conference CBRNE - Research & Innovation

**BUILDING A
BRIDGE BETWEEN
CIVILIAN AND
DEFENCE R&I**

LYON FRANCE

May 29th /

June 1st

2017

MEDICAL COUNTERMEASURES

Epidemiology
Health surveillance
Drug development
Comprehensive approaches

DETECTION - IDENTIFICATION - DIAGNOSIS

Home-made explosives (HME)
Improvised Explosive Device (IED)
Field sampling & analysis
Skin biomarkers
Bioindicators & sensors

PROTECTION - DECONTAMINATION

Human & environmental
Infrastructure
Smart surfaces & textiles
Skin, wounds, hair & eyes

SCIENTIFIC COMMITTEE

Michael Abend (DE)
Fabiana Arduini (IT)
Peter G Blain (UK)
Bertrand Bourlon (FR)
Elisabeth Carniel (FR)
Pierre Charrue (FR)
Robert P Chilcott (UK)
James F Dillman (USA)
Michel Drouet (FR)
François Fontaine (FR)
Daniel Gillet (FR)

Roland Grunow (DE)
Hans-Ulrich Holtherm (DE)
Marti Jett (USA)
Pascal Kintz (FR)
Kamil Kuca (CZ)
Chunsheng Li (CA)
John Mikler (CA)
Jean-Baptiste Meynard (FR)
Jean-Ulrich Mullot (FR)
Florian Nachon (FR)
Daan Noort (NL)

Jimmie C. Oxley (USA)
David Pignol (FR)
Christophe Pijolat (FR)
Stéphane Sarrade (FR)
Jean-Nicolas Tournier (FR)
Steven Schutzer (USA)
Michael Switkes (BE)
Ed van Zalen (NL)
Masaru Watanabe (JA)
Håkan Wingfors (SE)

The 2nd International Conference CBRNE - Research & Innovation

UPDATE YOUR KNOWLEDGE ON FUTURE TRENDS & NEW TECHNICAL CHALLENGES ON CBRNE !

Recent history has demonstrated that both military and civilian populations could be exposed to highly hazardous CBRNE agents following conflicts, natural outbreaks and disasters, industrial incidents or terrorist attacks.

Worldwide, research and industrial capacities have been engaged to provide answers adapted to these challenges. Building on the success of the 1st International Conference « CBRNE Research and Innovation » which took place in 2015 (Antibes, FR), we wanted to give you a new opportunity to build up or strengthen collaborative networks.

The 1st day of the Conference will be dedicated to presentations of feedbacks, needs and industrial innovations. The following days will focus on the scientific updates.

The 2017 conference will focus on topics that could build a bridge between civilian and defence R&I in CBRNE countermeasures and explosive detection.

ORGANIZING COMMITTEE

Christophe Bossuet and
Marie-Thérèse Ménager
Alternative Energies and Atomic
Energy Commission
(CEA)

Emmanuel Clavaud and
Denis Josse
French Federation of Fire and
rescue Services
(FNSPF)

Emmanuelle Guillot-Combe
Armement procurement agency
(DGA)

Frédéric Dorandeu and
Christophe Peyrefitte
French Armed Forces
Health Services (SSA)

LOCAL COMMITTEE

Caroline Carbonnelle
Inserm Jean Mérieux BSL4 laboratory

Stéphanie Briançon
School of Pharmacy
Lyon 1 University

Roger Viney
Rhône and city of Lyon Fire and
Rescue Services (SDMIS)

Jean-Jacques Lehot,
Géraldine Pina-Jomir and
Jean-Marc Saponi
University Hospital of Lyon

Dominique Saint-Dizier
National Forensic Science Institute

DEADLINES

Abstracts : January 31, 2017

Notification : March 10, 2017

Early registration : January 31, 2017

Late registration : March 27, 2017

Conference
Espace Albert Camus, BRON
LYON, FRANCE

**May 29th to
June 1st 2017**
