Dear Friends and Colleagues,

It is my pleasure to welcome you at Interdisciplinary Toxicology Conference TOXCON 2022 which is organized in Hradec Kralove, the Czech Republic (August 29 to September 1, 2022).

Along with a great scientific program, the participants will be able to enjoy Hradec Kralove, a magnificent historic city, founded in the 13th century. Hradec Kralove, known as the „Salon of the Republic“, is a center of modern Czech architecture with theaters, galleries, concert halls, colleges and universities. Hradec Kralove (with about 100,000 inhabitants) is the home of the University of Hradec Kralove, two faculties belonging to Charles University (the Faculty of Medicine, and the Faculty of Pharmacy) and the University of Defence (the Faculty of Military Health Sciences).

We believe that you will not only benefit from the new knowledge gained at the conference but we also hope that you will enjoy a successful and stimulating conference and take only the fondest memories with us home!

On behalf of the Organization Committee, we warmly welcome you to this great event!

Kamil Kuca,

Chair of TOXCON 2022

TOXCON 2022 is organized by

- The University of Hradec Kralove, CZ
- The University Hospital Hradec Kralove, CZ
- The University of Defence, Hradec Kralove, CZ
